SLEEP STUDY REFERRAL

Unit Record Number

Family Name

Given Names

Date of Birth Age

Sex Room No.

OR USE LABEL

For GP direct referral, please complete the two questionnaires below to ensure the patient has a high probability for significant symptomatic obstructive sleep apnoea.

Epworth Sleepiness Scale

Please circle only one number per scenario: (0 = never, 1 = slightly, 2 = moderately, 3 = highly).

How likely are you to doze off or fall asleep in the following situations, in contrast to feeling just tired? This refers to your usual way of life in recent times (last few months). Even if you have not done some of these things recently, try to work out how they would have affected you.

	Never	Slightly	Moderate	Highly
Sitting and reading	0	1	2	3
Watching TV	0	1	2	3
Sitting inactive in a public place	0	1	2	3
As a passenger in a car for an hour without a break	0	1	2	3
Lying down to rest in the afternoon, when circumstances permit	0	1	2	3
Sitting talking to someone	0	1	2	3
Sitting quietly after lunch without alcohol	0	1	2	3
In a car, while stopped for a few minutes in traffic	0	1	2	3

Scoring: Add the value of all circled numbers – Total must be 8 or higher to be eligible for direct referral for initial sleep study, followed by Sleep Physician consultation.
Forpatients with values < 8, they will be referred for a Sleep Physician consultation first.

TOTAL

OSA50

Please circle only one number per row

Obesity	Is your waist circumference >102cms (male) or >88cms (female)?	3
Snoring	Has your snoring ever bothered other people?	3
Apnoea	Has anyone noticed that you stopped breathing during sleep?	2
50	Are you aged 50 years or over?	2

Scoring: Add the value of all circled numbers – Total must be 5 or higher to be eligible for direct referral for initial sleep study, followed by Sleep Physician consultation.
For patients with values < 5, they will be referred for a Sleep Physician consultation first.
