Professional background

Dr Daniel Kluver is a Consultant Psychiatrist in private practice at Robina Private Hospital specializing in general adult psychiatry with a special interest in mood disorders and neurostimulation.

Dr Kluver is interested in understanding people and their stories. He is motivated to work collaboratively with patients to identify treatment plans that promote recovery and overall well-being. Dr Kluver recognized the complex interplay of biological, psychological and sociocultural factors that can contribute to an individual's mental health experience and takes a holistic approach to his practice.

Dr Kluver completed his medical training and psychiatric specialty training locally on the Gold Coast. He has experience working with a wide range of psychiatric subspecialty areas including specialist eating disorders, mood disorders, early psychosis and personality disorder services.

He has worked in the public sector at the Gold Coast University Hospital and Robina Hospital prior to beginning full time private practice at Robina Private Hospital. Dr Kluver continues to engage medical students and psychiatric trainees in their Mental Health training.
