### Professional background

---

Dr Nikolarakos is a board-certified specialist Oral and Maxillofacial Surgeon and can manage problems involving the face neck and jaws.

These include dental and wisdom teeth extractions, placing dental implants, bone grafts and sinus lifts, jaw corrective surgery, facial trauma and sleep apnoea surgery. He also sub-specialises in the areas of Head and Neck Cancer and Facial Reconstruction. These include skin cancers, saliva gland cancers and cancers of the mouth jaws and throat. He performs facial reconstruction with local tissues or tissue transplants from other parts of the body using highly complex microsurgery techniques.

Dr Nikolarakos has been in the Gold Coast since 2011 and is renowned for his caring and compassionate manner, his surgical expertise and dedication to research and teaching. Many colleague surgeons from his and other specialties refer to Dr Nikolarakos their most difficult and challenging cases.

Dr Nikolarakos is available for consultations at the Gold Coast Private Hospital.
